## **Behaviors and Responsibility**

- Have fun and learn more about the game.
- Schoolwork comes before soccer. Education is very important in the development of all players. Players will put their school work before soccer. Parents are encouraged to notify the coaching staff of any school related conflicts. Adjustments will be made accordingly.
- Be at practice on time, with the proper equipment and water.
- Arrive at games 30 minutes prior to game time.
- Players will treat all players and coaches with respect. We are a team and represent St. Albert's.
- No cursing or vulgar language.
- Coaching staff will handle all issues with referees, not the players or parents.
- At the conclusion of practice or games, players will not leave until all equipment is picked up.
- Players are expected to give full effort.
- At the conclusion of games, players must shake hands with the opposing team. After shaking hands, all players will gather at the bench for a short post game meeting.
- Spend time outside of practice practicing soccer.
- Arrive at practice on time. If you are unable to attend practice, please notify the coaching staff of the reason for your absence.
- If you will not be at the game, inform the coach as soon as possible. If you do not inform the coach, you will not play in the next game.
- Players will not leave practices or games until all equipment is picked up.
